

## **DA1107**

SecurePoE™ MultispanUPS™

- Includes pre-patched Cisco 5-Port Gigabit network switch (powered by MultispanUPS™)
- High efficiency power supply providing 100% power availability to each PoE port
- SecurePoE™ is provided in secure enclosures, with monitoring functions and fast cable entries
- Designed to allow installers to connect to PoE powered devices allowing easier installation, set-up and maintenance
- Power status LEDs for quick visual diagnosis of system status
- Network data infrastructure issues do not affect the supply of PoE power
- MultispanUPS<sup>™</sup> maintains power with VRLA battery back-up for the SecurePoE<sup>™</sup> unit, Cisco network switch and attached PoE devices in case of mains failure
- Further information available at www.Dantech.uk.com

CCTV	_	Intercoms	_	Access Control	VOIP

A power over Ethernet multispan power supply with secure enclosure and monitoring. Every SecurePoE™ unit complies with the IEEE 802.3:2012 standard (IEEE 802.3at/IEEE 802.3af). SecurePoE™ units will provide the full 30W of power to every port. All units are housed in secure tamper protected cases.

One, two or four PoE output wall mount versions are available in secure indoor or exterior enclosures. 1U Rack-mount versions are available with 4 ports per unit.

The PoE outputs have LED indication to show if a compatible device is connected and powered. In addition there are SPCO clean contacts for monitoring the power status of each output.

PoE multispan devices combine the reliability of a midspan device with the ease of an endspan unit.

The pre-patched unmanaged switch allows for one data connection (e.g. from network) to be connected to up to 4 PoE powered devices, whilst providing reliable power to these devices.

Multispan units can be located 100 meters away from existing network infrastructure and attached devices can be a further 100 meters from the SecurePoE™ Multispan unit.

Output				
PoE Ports	DA1107-IN-1 DA1107-EX-1 -	DA1107-IN-2 DA1107-EX-2 -	DA1107-IN-4 DA1107-EX-4 DA1107-RM-4	
	1 x 30W	2 x 30W	4 x 30W	
Voltage	55V DC (nominal)			
Current	urrent Maximum 0.55A (30W) per port			
Connection type	RJ45 - Plug & play			
Status indication	LED indication; Flashing = PoE device connected, no power requested On = PoE device connected, power enabled Off = PoE device not detected			
Compatibility	IEEE 802.3:2012 (IEEE 802.3at & IEEE 802.3af, full backward compatibility)			
Data rate	DA1107-x-x-G			
	10BASE-T 100BASE-TX 1000BASE-T (Gigabit)			
Power class detection	Automatic class 0, 1, 2, 3, 4 detection			
Mode	Mode B (Delivers power over spare pairs on 10/100 networks only)			
Internal network switch power	12V 1A (5.5mm connector)
